Work Experience

Frontend Developer   **DataOn (PT Indodev Niaga Internet)**   **Aug 2021 - Present**

South Tangerang, Indonesia

- Developing modules such as attendance, payroll & employee for Human Resource Management System (workplaze) using React
- Developing base framework components such as form, date picker, time picker, upload input, seat mapping & etc..
- Developing helper & utilities function for others dev to use such as http fetcher, formatter & encryption.
- Implementing custom themes & custom login page on workplaze app. This feature is interesting for clients, they can use our product (workplaze) with their preference for color, logo & login page.

Full Stack Developer   **Travewell**   **Aug 2016 - 2021**

Remote, Indonesia

- Developing an ASP.NET MVC website that has lots of modules, such as flight, train, hotel, tour & PPOB
- Rewrite from Jquery to React
- Developing Tour REST API.
- Developing e-ticket & e-voucher.
- Developing CMS website for agents using Vue JS & October CMS.
- Developing a travel mobile app platform with Flutter.

Software Engineer Intern   **Forest Interactive**   **Jun 2015 - Jul 2016**

Jakarta, Indonesia

- Developing and designing a landing page website and wapsite with ASP.NET Webform.
